PROFILE

Data analyst moving into data engineering. At TBC Bank — the largest bank in Georgia — I work in Databricks (PySpark, SQL, AI/BI dashboards) and build internal tools with agentic AI workflows, after several years of building and administering Power BI reporting. I turn raw, messy data into reporting that people actually use.

EXPERIENCE

Data Analyst July 2025 – Present

TBC Bank · Tbilisi

Power BI Developer & Administrator March 2024 – July 2025

Prime Compliance (PCL) · Remote
